

ABEL^{Med} PM-EMR

Better Patient Care... Faster

- Serving Physicians since 1977
- CCHIT Certified Software
- Microsoft Gold Certified Partner

Corporate Information

- Established in 1977, ABELSoft specializes in providing cost-effective Electronic Medical Records and Practice Management solutions and associated services that save time and enhance revenue
- Our stability and longevity are unique among medical software suppliers
- ABELSoft provides thousands of medical and dental offices across North America with software, training, 24/7/365 telephone support and associated services
- In an independent survey sponsored by Microsoft, 97.4 % of respondents reported satisfaction with our products, support, and both on-site and Internet-based training services!
- As Microsoft Gold Partners, we use the latest Microsoft technologies to deliver comprehensive clinical and practice management functionality
- ABELMed PM - EMR v 8 has achieved full CCHIT 2007 Certification. We are currently preparing for our CCHIT 2008 certification.

- Serving Physicians since 1977
- CCHIT Certified Software
- Microsoft Gold Certified Partner

Highlights of ABELMed PM - EMR features and ABELSoft services:

Features and Functionality

- Physician Dashboard
- Comprehensive Documentation of Patient Demographic and Coverage information
- Face Sheet (Cumulative Patient Profile)
- Patient Encounters/Progress Notes
- Prescriptions
- Referral Management
- Document Management / Scanning
- Lab Information
- Lab Integration
- Billing
- Scheduling

Services, Support and Training

- ASP/SaaS and Local Solutions
- Security and Privacy
- Implementation
- Software Support and Training
- Associated Services
- ABELHealthNet – Portal for Patients and Practitioners
- Turnkey Solutions

Physician Dashboard

View and organize your day's work from a single screen.

The dashboard helps you manage your time and outstanding work-to-do by drawing your attention to items such as lab results, unsigned encounter notes, tasks that you've assigned or have been assigned to you and your appointments for the day by presenting them on a single screen.

The screenshot displays the ABELMed Physician Dashboard for Dr. Adam Abel on 20/06/2007. The dashboard is divided into four main sections:

- Appointments:** A table showing the day's schedule with columns for Time, Status (S), Patient Name, and Work To Do.
- Lab Viewer:** A table showing lab results with columns for Abn, Rev, Patient Name, Service Date, Status, and Physi.
- Notes Requiring Signing:** A table showing notes that need to be signed, with columns for Date, Patient Name, and CC / Reason for Visit.
- Tasks:** A table showing tasks assigned to the physician, with columns for Status, Sta, Due, Patient, Task Name, Task, Wor, and Assigner.

Below is the data extracted from the 'Lab Viewer' section:

Abn	Rev	Patient Name	Service Date	Status	Physi
		BLYTHE, BOB	10/Mar/2006	FINAL	Dr. A
		CRAMDEN, BOB	10/Mar/2006	FINAL	Dr. A

Comprehensive Documentation of Patient Demographic and Coverage Information

Personal and Extra Tabs

- Documentation of relevant patient demographics
- Comprehensive Information regarding the patient's insurance providers, policies, deductibles, co-insurance, appointment alerts, and more are presented on a single page
- Coverage of family members can also be viewed from the same screen
- Primary versus secondary payers for the patient and the family can be designated thus simplifying the billing process

Services Tab

- Easy and efficient creation of claim report
- Access to standard lists of diagnostic and CPT codes
- Ease of use for fast and accurate billing
- Group commonly billed codes to form "supercodes" and save time
- Several fee schedules can be simultaneously maintained
- Services can also be billed directly from the scheduler

Face Sheet (Cumulative Patient Profile)

- Maintain a concise summary of patient's overall health
- Customize the appearance of the screen by group/clinic, provider, or patient
- View Face Sheet/CPP and past encounters side-by-side
- Auto populate the face sheet

Date: January 22, 2007

To:
Dr. L. Sweet
1472 Candy Street
Bethesda, MD 22222

Regarding:
CHRISTINE COSTA - (817)555-2323
2356 Red River Rd
Anytown, MA 02055
Birth Date: 1970-10-11

Reason for Referral
This patient has been experiencing frequent migraines for the past several months.

Family History
Mother has a history of Migraines.

Social History
Smoker (1/2 a pack/day, since the age of 18).

Medications
Prescribed: MAXALT 5 MG TABLET PO

Allergies
Positive: AMOXICILIN 250 MG CAPSULE (allergic drug reaction)
Positive: Peanuts (by at onset, severe, anaphylaxis)

Problem List
548 - Migraine

Comments
Thank you for seeing this patient and assisting in our care.
If admitted, please call: (817)776-7768

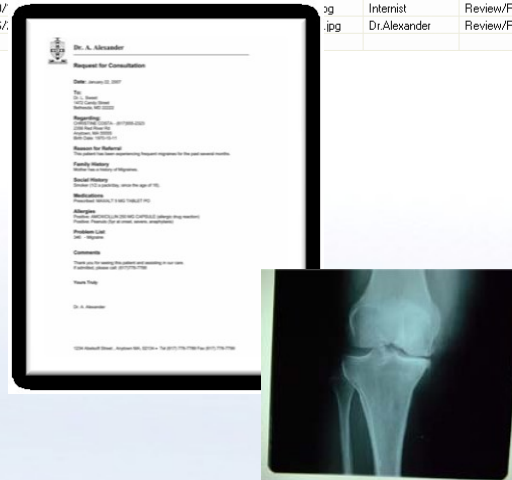

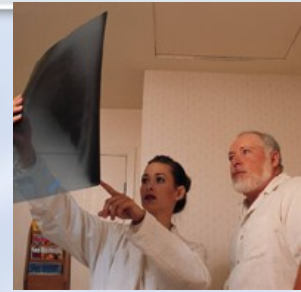

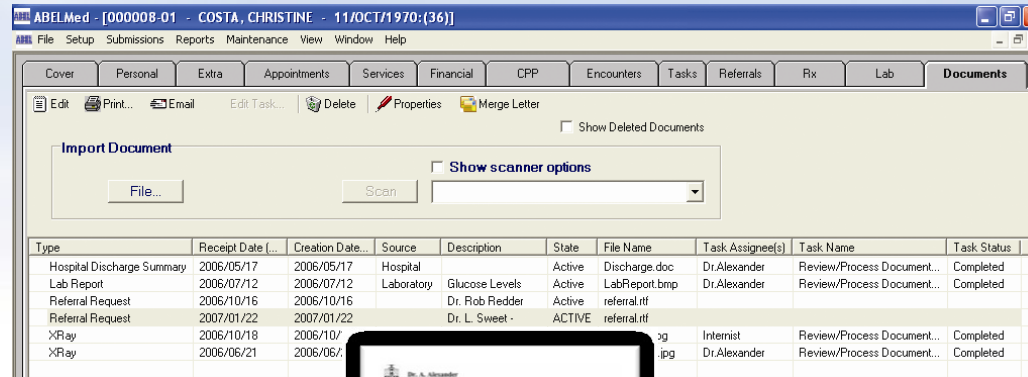

Yours Truly

Dr. A. Alexander

1234 Abascoff Street, Anytown MA, 02134 • Tel (817) 776-7768 Fax (817) 776-7769

Document Management/Scanning

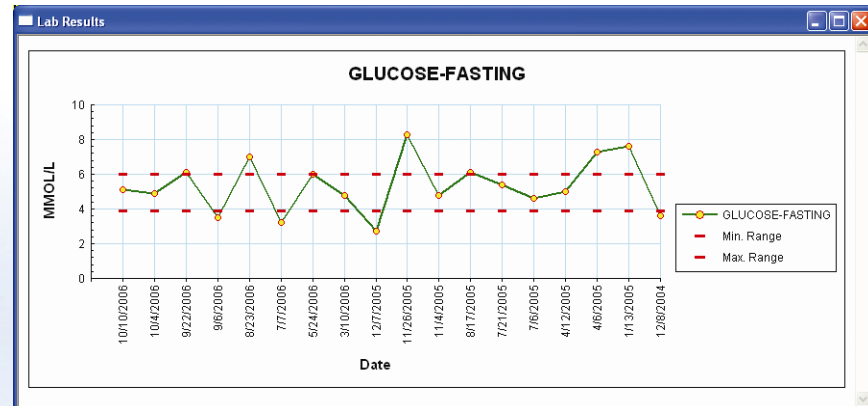

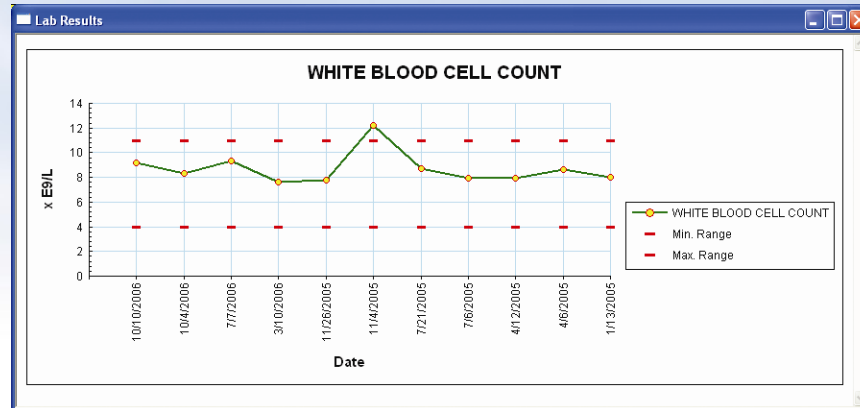

- Scan or import images and documents
- Send documents or images by email or fax
- Create document categories to organize your documents - making them easier to find.
- Merge existing templates with patient information to quickly create patient specific documents.

Lab Information

- ABELMed PM – EMR offers you a choice to view cumulative lab results – in tabular or graph format
- Visual presentation of lab results helps in counseling the patients
- Lab results can be plotted against medication usage to help in clinical management of a condition - e.g. optimizing the Coumadin dosage

Lab Integration

- Receive lab results electronically
- Hospital lab integration available
- Custom Interfaces with local labs can also be developed
- Be alerted to abnormal findings

Billing

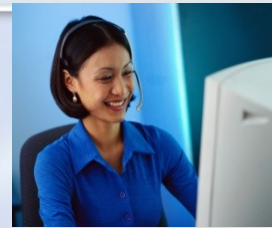

- Use information collected during the encounter to automatically create bills
- Establish and maintain control of all receivables including different payer plans
- Track uncovered services
- Produce financial reports
- 3M Edit Engine will help minimize billing errors

The image displays several screenshots of the ABELMed software interface, which is used for medical billing and encounter management. The main window shows a patient encounter for 'JIMMY DOE' on 01/APR/2006. The interface includes tabs for Cover, Personal, Extra, Appointments, Services, Financial, CPP, Encounters, Tasks, Referrals, Rx, Clinical Forms, Lab, and Documents. The 'Encounters' tab is active, showing a list of encounter types (e.g., Chief Complaint, Past Medical History, Medication) and a 'Billing Summary' section. A 'Billing Summary' window is open, showing a list of diagnosis codes (e.g., V70.0, 280.9) and procedure codes (e.g., 93930). A 'Mark Queue' window is also open, showing a list of tasks (e.g., 'SHIRLEY JONE Follow up on last month's claim', 'DAVID WILSON Eligibility check', 'JIMMY DOE Billing From Encounter') with columns for Status, Start Date, Due Date, Patient, Task Name, and Assigner. The 'Billing From Encounter' window is also visible, showing details for a specific encounter (e.g., 'JIMMY DOE', 'Billing From Encounter', 'Priority: Normal', 'Duration: 0d').

Scheduling

- Customize information displayed on the appointment schedule
- View or print daily or weekly schedules for one or more practitioners
- View patient's past and future appointments instantly
- Track arrival and departure of patients
- Color-code your appointments based on type of visit

ABELMed - [Appointment Scheduler - 11/JAN/06]

CAP NUM SCRL Mwelby

ABELMed PM – EMR is available in both ASP and local (client server) environments. We will help you determine which environment is best suited for your office.

➤ An ASP Solution offers you the following advantages:

- Low initial investment and/or greater payment flexibility (e.g. pay-as-you go)
- No need for special infrastructure (hardware & supporting applications)
- An ASP uses network bandwidth which provides enhanced service scalability
- Reduced cost of maintenance

➤ A local or client server solution offers the following advantages:

- Control over your own data
- No dependency on internet connection
- Better integration with imaging devices such as scanners and printers
- Faster overall operational speed

Security and Privacy

- ABELMed includes security features that allow you to control access to the information in your system.
- Access to medical records can be restricted more easily than paper records.
- Staff access can be limited to the information that they require to do their jobs effectively.
- In addition, ABELMed keeps electronic audit trail that tracks all documentation and modifications to records. This functionality meets the government and legal requirements for tamper-proof charts.

PIPEDA and PHIPA

- ABELSoft is very concerned with your needs in regards to security. Installation of a PIPEDA-compliant software system, like ABELMed, ensures security of your data and may actually help a practice reduce its administrative costs.
- ABELMed PM – EMR is CCHIT certified and as such captures all the appropriate information to meet the security, auditing and privacy requirements.

- Serving Physicians since 1977
- CCHIT Certified Software
- Microsoft Gold Certified Partner

Implementation

Implementation Road Map

Implementing information technology is an individually paced process.
This is a sample of the steps involved.

ABELSoft will help you every step of the way to ensure that your implementation is smooth and successful.

**ABELSoft
Corporation**

Software Support & Training

- 24/7/365 telephone support services
- Live answer during our business hours - 8:30 am - 5:00 pm EST
- Average resolution time is less than 8 minutes
- Free access to our on-line support knowledge base
- ABELSoft will help you develop a customized training plan that will have the greatest positive impact on your practice
- You can use one or more of the following methods to learn how to use ABELMed:
 - On-site training sessions in the familiar surroundings of your own practice
 - Personalized remote training sessions over the Internet
 - Regularly scheduled ABELMed PM - EMR Webinars
 - Classroom sessions in our fully equipped training facility at ABELSoft headquarters
 - The ABELMed PM - EMR CD contains many video tutorials that provide a great overview of the software's features

- Serving Physicians since 1977
- CCHIT Certified Software
- Microsoft Gold Certified Partner

Dramatically increase your net income and office efficiency with services that are completely integrated with ABELMed.

➤ **Key Practice Indicators (KPI)**

ABELSoft will help you identify and use KPI to measure and improve your practice performance.

➤ **Remote Monitoring and Administration**

ABELSoft will connect to your computer system regularly, to perform updates and maintenance. Your system will also be monitored around the clock so that we can quickly alert you if problems arise.

➤ **Remote Backup Service**

Our remote backup service leverages your existing internet connection to transfer your data backup to a secure off site facility. We also offer a backup verification service will ensure that your valuable data is fully accessible and restorable from the media on which it is stored.

ABELHealthNet – Portal for Patients and Practitioners

- ABELHealthNet provides patients with the means to connect to their health records from anywhere
- Patients can view or update portions of their record or interact with the medical office to do things like book, confirm, or reschedule appointments
- Physicians retain control of the information to be shared, and patients can grant protected access to their basic health data so that medical providers can access it when required to deal with medical emergencies

The screenshot displays the ABELHealthNet patient portal. At the top, the logo "ABELHealthNet" is visible, along with the tagline "ABEL Portal for Patients and Practitioners". The date "Monday, December 08, 2008" is shown in the top right corner. A navigation bar includes links for Home, Profile, Appointments (which is highlighted), Mail, PHR, Requests, Settings, and Patient Login. Below the navigation bar, there is a "Logout" button. The main content area is titled "Appointments" and contains two tabs: "New Appointments" and "Existing Appointments". Under the "New Appointments" tab, there is a section for "Appointment Type:" with a dropdown menu. Below this is a "Pre-Scheduled" section with a message "No Data To Display". Further down is an "Appointment Preferences" section. It includes a "Check Dates:" field with a note "(all dates on or after contact date)" and a "Preferred Time:" field with radio buttons for "AM" and "PM". There is also a "Notes:" section with a text input field. At the bottom of the preferences section is a "Request Appointments" button. Below the preferences section is an "Available Appointments" section with a message "No Data To Display".

Turnkey Solutions

- ABELSoft provides a complete turnkey solution including software, hardware, training and services
- You are free to choose hardware suppliers that best meet your needs in terms of quality, cost and level of service. We will work with them cooperatively taking undivided responsibility to ensure smooth implementation
- Benefit from our critical recommendations on system requirements and our installation and set up services
- We offer one-stop solutions including complete financing exceptionally attractive plans for software, hardware and associated services

ABELSoft is proud to participate in the Maryland Health Care Commission EHR Initiatives program.
We offer special incentives and discounts for program participants.
